To : The Directors of Sannitree International CC

I would just like to place on record that our organization has for the past 5 years serviced 16,000 informal settlement toilets at an average of 12 services per month, which equates to approximately 200,000 services per month.

Over this period the contract has been renewed several times and the success of this project is in no small way to the excellent quality of the Sannifresh product that your company supplied.

We wish you continued success.

.....

Sakkie Majiedt
